## Schuco-Vac 130 Aspirator

### *The Schuco-Vac Model 130 Aspirator has a new look!*

The regulator assembly has been replaced with a bacteria filter, eliminating the cap and float assembly. This filter will prevent fluids and other contaminants from damaging the pump. This durable unit continues to meet the need for controlled vacuum regulation from 0" up to 22" Hg with a flow rate of 28 lpm.

*The look is different, but the Schuco quality is the same ...  
and so is the warranty: 3 years.*

#### Standard Features

- New bacteria filter prevents contaminant damage
- Vibration-free easy-to-read regulator gauge
- Wire basket accommodates a variety of canisters
- 3 bacteria filters with every Schuco 130
- Quick-connect tubing for all connections
- Hydrophobic filter eliminates head flooding, the most common cause of pump damage
